This is a reimagine of Project 2 from the Secret Box #4 Guidebook. This is my cutting guide for this set of pages:

- Bright White:
 - (2) 12 x 12 Bases
 - (2) 6" x 4" – right page
 - (1) 4" x 6" – left page
 - (1) 4" x 4" – left page
 - (1) 5 $\frac{3}{4}$ " x 3 $\frac{3}{4}$ " – left page
 - (1) 3 $\frac{3}{4}$ " x 3 $\frac{3}{4}$ " – right page
- Cool Grey:
 - (1) 6 $\frac{1}{4}$ " x 4 $\frac{1}{4}$ " – left page
 - (1) 4 $\frac{1}{4}$ " x 4 $\frac{1}{4}$ " – right page
- Grey Blanket Soft Texture:
 - (1) 5" x 11" – left page
 - (1) 7" x 11" – right page
- White Paper Soft Texture
 - (2) 5" Circles – one on each page

Steps to make pages:

- Adhere Grey Blanket Paper to the base pages. Leave adhesive off the edges where you will tuck circle.
- Place left grey cardstock 2" from the bottom on the left page and the other 2" from the top on the right page. Leave adhesive off the edges where you will tuck circle.
- Without adhesive, tuck the circles on the pages and draw a light pencil line around the edge of the circle so you know where to stencil. Remove the circles and stencil directly on the page. Now adhere the circles.
- Place the white photo mats as shown. I have used foam squares on the mat that are adhered to the grey cardstock. I have also tied twine around them. TIP: When using twine and tying a bow, also tie the bow so that it is nearer the outside edge of the page.
- Finish by embellishing with flowers, silver thread, embellishments, borders, gems and letters.
