Supplies:

- Timeless Tidings Designer Paper Pack
- Timeless Tidings Fast2Fab Paper Pack
- Timeless Tidings Embellishments
- Timeless Tidings Stickers
- Bright White Cardstock (2 sheets)
- Festive Foliage Embossing Folder
- Signature Script Uppercase Dies, Lowercase, and Numbers & Punctuation
- Evergreen Edge Chain BMC
- White Gelly Roll Pen
- Sanding Block

Step 1: Bright White is the base of your page.

- Embossing: Find the dark green Fast2Fab paper with the red bows at the top. Cut (2) pieces of the dark green from this sheet to emboss with the Festive Foliage folder. They are 9" x 1" and 9" x 2 ¾". When you have embossed them, sand them lightly to bring out the white core of the patterned paper.
- Punching: Using the dark green paper again, punch two 9 ½" lengths with the Evergreen Edge Chain BMC. Cut one in half lengthwise so that you have 1 ½" punched lengths for your page.
- Die-Cutting: In the Timeless Tidings paper pack, find the cranberry print with snowflakes and diamonds. Using the Script Lowercase font, die-cut the word "festive." Using the Script Uppercase, die-cut the word "FUN." Using the Script Numbers and Punctuation, die-cut two banners.

Step 2: Cut a piece of Plaid print paper at 10" x 9". Adhere to the base ½" from the bottom and 1" from left edge. Follow by cutting a piece of Cranberry print (the same one used for die-cutting) at 9½ x 8 ½, and center over the plaid.

Step 3: Cut (3) 2 ¾" x 4 ¼" from Bright White cardstock. These are the photo mats are 2" from the bottom and 1 ½" from the edges. Next, place the 9" x 1" embossed piece below the photo mats and the larger embossed piece above the photo mats.

Step 4: To build your punched layer, adhere the half-length to the bottom of the Evergreen Chain alternating the branches to make the piece fuller. Cut a 1/8" x 9 ½" strip from the gold paper in the paper pack. Place this over the middle of the branches. Adhere the Evergreen punched piece over and below the photo mats.

Step 5: To adhere the letter, start with "FUN" and adhere starting with the N lined up with the Plaid paper. As you are adhering "festive" overlap the letters so that it looks like script. Finish by adding three dots to each letter with your White Gelly Roll Pen. This adds a little more fun!

Step 6: Finish with banners, embellishments, and stickers. Use 3-D foam tape as desired.
