Supplies:

- Moonlit Pine Designer Paper Pack
- Moonlit Pine Stickers
- Moonlit Pine Embellishments
- Moonlit Pine Mat Cards
- Bright White Cardstock (1)
- Gingham Stencil
- Banners Stencil
- Black Ink and Matching Blending Brush
- Kelly Green Ink (Cottage Ivy) and Matching Blending Brush
- Place and Peel Tape
- Gelly Roll White Pen
- 12" Trimmer
- Micro-Tip Scissors
- Repositionable Tape Runner
- Thin Foam Squares

Step 1: Use Bright White as your page base paper.

Step 2: Cut (3) 3" x 8" pieces. One each of Black Snowflakes, Plaid, and Falling Stars. Starting on the right edge, adhere the Black Snowflakes ½" from the right edge and 2" from the bottom of the page. Follow with Plaid and Falling Stars leaving 1/8" between each one.

- Gingham Stencil Work: Tape the stencil so only one line of 11 squares is showing. Using Black ink stencil the squares as shown next to the patterned pieces on the top left side, bottom left, bottom right side, and top right.

Step 3: Find the mat cards with the gold edges. Use the large card for a photo mat for a 4" x 6" photo. The smaller mat card is cut down to 3 ½" x 4 ½". This will be for a 3" x 4" photo. The large photo mat is 1" from the right edge and 2 ¾" from the bottom. Tuck the smaller photo under the left edge of the large photo as shown. Use the White Gelly Pen to put dots in the corners of the gold edges of the photo mats.

Step 4: Cut a 4 ½" x ¾" piece of Black Snowflakes paper. Cut a 4" x ½" piece of Plaid paper. Dovetail both on the left end. Place the Plaid paper ¼" from the top and against the right edge. Tuck the Black Snowflake under the Plaid.

- Banner Stencil Work: Choose the banner you would like to use. Stencil heavily with Cottage Ivy ink on Bright White scrap paper. Fussy cut the banner leaving a small white edge. Adhere to the bottom of the large photo. You can use the White Gelly Roll Pen to write on it or choose a sticker.

Step 5: Finish the page with embellishments and stickers, using 3-D foam as desired.
