- Teal Flower Embellishments
- Magic of Christmas Borders
- White Gel Pen
- Honey Bee Stamps Make it Merry Gems

This is a reimagine of Simple Page Kit #12. Cut apart all the pieces and the cutting sheet so you are left with only cut pieces. This is my cutting guide for this set of pages:

- Bright White:
  - (2) 12 x 12 Bases

- Cool Grey Words:
  - (2) 12" x 4"
  - (2) 12" x ½" (use reverse side which is dots)
- Dark Sea Green Floral:
  - (2) 12" x ¼" (there are two large pieces, so cut one strip from each piece)
  - (2) 12" x ½" (there are two large pieces, so cut one strip from each piece)
  - (2) 4 ½" x 6 ½" (there are two large pieces, so cut one from each piece)
  - (2) 4 ½" x 4 ½" (there are two large pieces, so cut one strip from each piece)
- Diagonal Peppermint Stripe
  - (2) 10" x 4"

#### Steps to make pages:

- The pages are mirrored so build the right page in the very same way as the left.
- Place the Dark Sea Green ¼" strip ¼" from the top of the page.
- Leaving 1/8" in between, place the sticker border, Grey words, and then the red dots strip. Finally, place the Dark Sea Green ½" strip 3/8" from the bottom of the page.
- The photo mats are 3" from the top of the pages. The large mats are ½" from the inside edges and the square mats are 1/8" from the large mats.
- Add the Magic Christmas borders as shown on the page, using 3-D foam as desired.
- Draw stitch lines on the top and bottom Dark Sea Green strips with your white gel pen. Draw doodle lines around the photos. Draw dots on the corners of the mats and simply connect the dots.
- Build your floral clusters starting with the flowers. I only used one foam square on each flower so that I could tuck things in tightly. Add stickers around the flowers and leaves as desired.
- Add stickers above the focal photo on the left page using 3-D foam squares.
- Finish by adding gems as desired. I think they are the perfect finishing touch!
